

ALL LOOK MAKEUP

Beautician and Makeup Courses

This is an important session that students get to learn about how to work as a makeup artist and deal with applying corrective applications in terms of cosmetics for the skin, eyes, cheeks and lips. In this class, students practice and learn about how to apply makeup that is appropriate for daily needs, how to apply makeup for special days, high fashion and how to correctly apply makeup when appearing as models for fashion-related photography- both digital and print photography. Students are taught how to apply foundation, which foundation to apply on which particular skin tone, blushes, mascara eyeliner for the eyes, applying lip liner, gloss and lipstick etc. Makeup courses also include classroom demonstrations and theoretical understanding of face shapes, what to how to apply makeup on particular skin tones, the theory of colour, new trends in cosmetics and different application styles.

Course on Hairstyling

You can start with basic hairstyling course once you are done with the makeup course. This is an elective course that covers a complete training of the styling tools, like rollers both hot and cold, blow dryers, hot irons, their uses for creating new hairstyles that enhance the look for any occasion. They are also taught how to manage the hair and style it according to facial structures and occasions.

Course on Airbrushing

This is an elective class where students are taught the correct methods of using an airbrush machine, ways to apply the correct techniques on both the body and the face. Airbrushing classes also include the use of tanning and makeup applications, colouring prosthetics for using developing special effects or films, television or theatre. This class can be taken up after the basic makeup course, along with it or after classes.

Course on Stage Makeup

Theatre makeup is often different and students need to learn how to work with different directors who have different expectations in terms of characters, situations, theatrical lighting, and whether it is for the stage, film or video. Makeup artists also need to develop certain historical characters or a character in horror movies. Here, students would be taught to create bruises, injuries, and abrasions with the help and use of cosmetics, prosthetics etc, and they need to know how to apply the ageing effect on actors. Students would be taught how to add facial and body hair and conceal the head with bald caps etc.

Makeup Course on Special Effects

Students are taught about how to apply makeup on the body and the face. The course includes the teaching of prosthetic casting, sculpting, painting etc, and students need to practice working with latex, silicone, and foam rubber. Special effects course includes the building of multiple-piece looks with the usage of prosthetics, makeup and hair for achieving complicated effects
